

The Parent Talk System

Parent Talk System Workshop for Parents

The Parent Talk System is helping families across the country and internationally to create emotionally healthy relationships. With a six-session workshop, Dearborn Heights staff members Sue Fitzpatrick and Heidi Gauger will guide parents and teachers through verbal skills that help children to be responsible, respectful, and confident. Participants can implement the strategies presented immediately! Your children's Montessori teachers use this style of communication in the classroom. Skills covered include teaching responsibility, setting limits with choices, praising effectively, promoting independence, and encouraging character.

Classes are offered at two locations. Complimentary child care will be available.
